

PROFESSIONAL CLEANING | MAXIMUM PERFORMANCE

PRINT KLEEN

ADVANCED INK CLEANING SOLUTION

NON CAUSTIC | NON TOXIC | NON FLAMMABLE | NON CORROSIVE

Description:

PRINT KLEEN is a highly concentrated water based cleaner formulated to safely remove flexo UV, Solvent based and Water based inks from anilox rolls, rubber rollers, photopolymer plates, machinery/components, and press room floors.

PRINT KLEEN is also suitable for cleaning P.V.A and emulsion adhesives from glue feeding lines, roller systems, spray valves and machinery. One powerful and safe cleaning solution for all your press room needs.

Directions:

Dilute PRINT KLEEN with water at the following %

- For economic daily cleaning dilute and use at between 2.5% & 5% solution
- For medium duty cleaning dilute to 10%
- For Heavy duty cleaning and Solvent based inks use neat or dilute 1:1 with water.

PRINT KLEEN can be circulated through the entire ink or glue lines or applied via cloth, sponge, brush or spray and is also extremely effective when used in ultrasonic baths/dip tanks and will easily remove inks and adhesives from pressroom floors and press exterior.

Guide Dilution Ratios

Light Duty	Medium Duty	Heavy Duty
2.5% - 5%	10%	50% - 100%

Key Features:

- Highly Concentrated
- Extremely Versatile
- Superior Cleaning Power
- Cost Effective
- Non Flammable
- Non Toxic
- Non Caustic
- Non Corrosive
- Non Hazardous For Transport
- 10 Ph

Health & Safety:

Safety Data sheet available separately. Wear suitable personal protective equipment. Avoid contact with skin, eyes and clothing. Wash hands after use

Environmental:

PRINT KLEEN is a highly concentrated formulation which significantly reduces transport journeys and plastic waste compared to less concentrated or ready to use products which can help meet your environmental and Carbon Neutral goals. All surfactants contained in PRINT KLEEN comply with the current European Regulations concerning biodegradability & protection of the environment.

CAUTION: Pre Testing on all surfaces is recommended before use
